

Safety Assure

Powered by  CloudApper®

Safety Assure helps companies establish a safer workplace without the administrative burden.

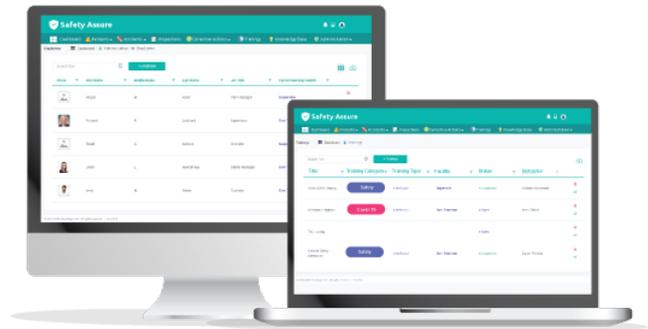

Maintain Compliance

Ensuring that employees are complying with safety policies is one of the most effective ways of saving medical and miscellaneous administrative expenses.

Build A Video Library

Employees can quickly and easily capture videos from their mobile phone and store them with incident, accident, audit, and training records for OSHA recordkeeping.

Reduce Workplace Injuries

Preventive measures reduce the rate of workplace injuries and prevent recurring incidents by identifying root causes, risks, hazards, and trends.

Features of Safety Assure

Compliance Obligations

Have a clear and detailed overview of compliance obligations from a mobile device. Executives can easily remain informed about important safety information that impacts the business.

Incident Management

Streamline safety incident and accident reporting with proper OSHA recordkeeping for injury and illness to leverage preventive action software tools and prevent similar incidents from happening again..

Audit Management

Easily schedule audits, identify issues, initiate corrective actions, create benchmarks, and assess effectiveness through detailed reporting..

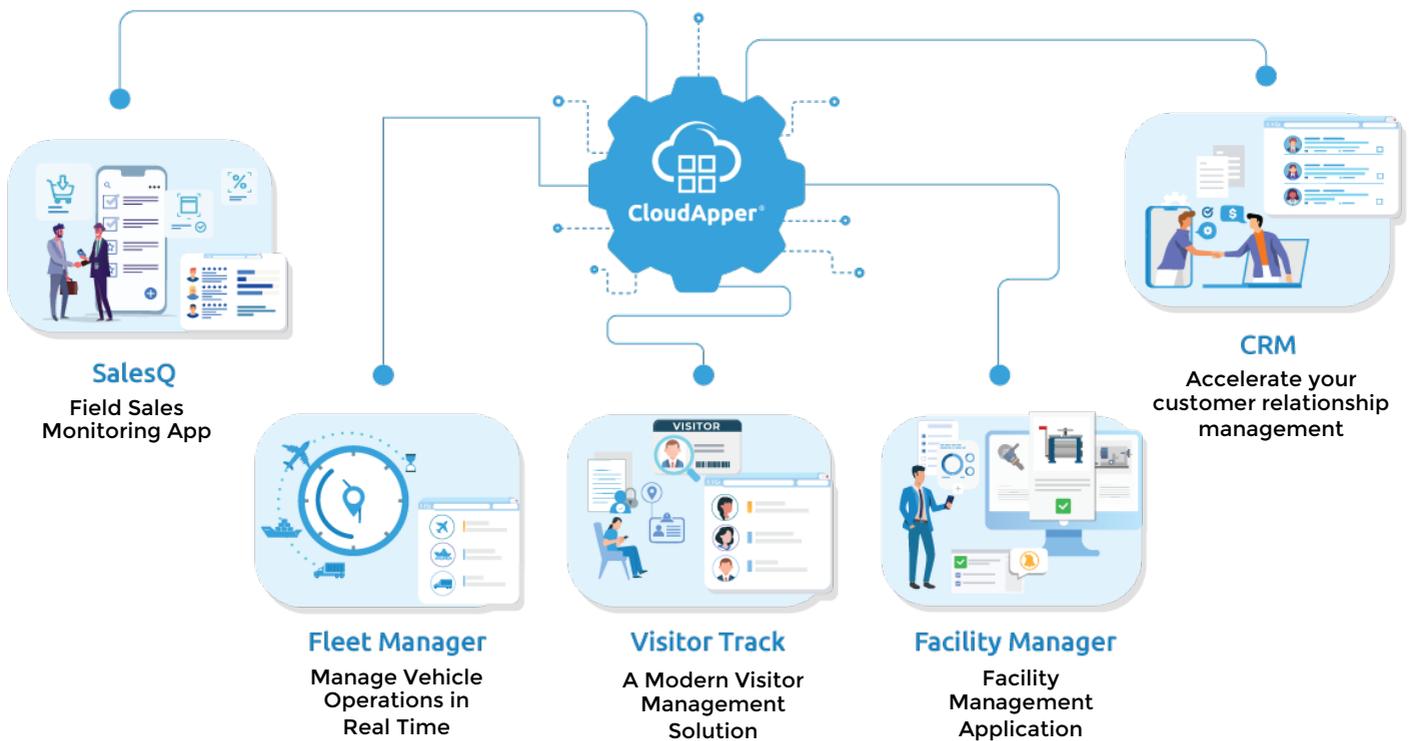

Knowledge Base

Stay updated on different regulation standards such as OSHA and ILO while enabling employees to quickly and easily share best practices to improve workplace safety.
